

4mL + 7mL CONCENTRATE CONTAINERS

PRODUCT SPECIFICATIONS

BASE + LID

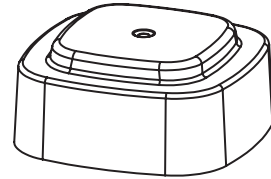

EXTERNAL DIMENSIONS

D 1.6" x W 1.6" x H 1.125"

WEIGHT

4mL: 1.693 oz (48 g)

7mL: 1.429 oz (40.5 g)

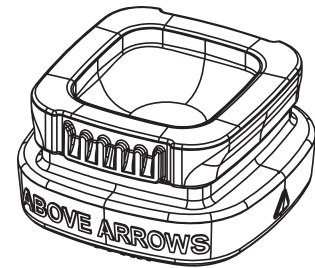

LID

EXTERNAL DIMENSIONS

D 1.6" x W 1.6" x H 0.689"

WEIGHT

0.177 oz (5.02 g)

4mL BASE

EXTERNAL DIMENSIONS

D 1.6" x W 1.6" x H 0.866"

INTERNAL DIMENSIONS

D 0.95" x W 0.95" x H 0.334"

CAPACITY

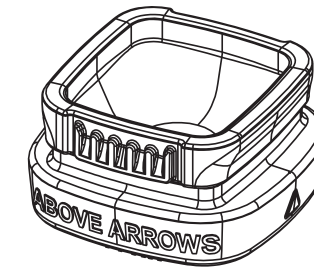

Volume: 4 ml / 0.14 fl oz

Product Fit: 0.5 g-1.0 g

Concentrate

WEIGHT

1.87 oz (53.02 g)

7mL BASE

EXTERNAL DIMENSIONS

D 1.6" x W 1.6" x H 0.866"

INTERNAL DIMENSIONS

D 1.10" x W 1.10" x H 0.045"

CAPACITY

Volume: 7 ml / 0.24 fl oz

Product Fit: 1.0 g-5.0 g

Concentrate

WEIGHT

1.605 oz (45.5 g)

The 4mL and 7mL containers' modular design means that **only their internal dimensions are different**. Externally, they have the same dimensions and footprint. Both base container sizes also use the **same lid**.

STANDARD COLORS AND FINISHES		4mL BASE	7mL BASE		LID

	MATERIALS	56% Recycled Glass Soda Lime Type III	56% Recycled Glass Soda Lime Type III	Opal Glass	Plastic Polypropylene #5	

BRANDING AREA

Lid Labels Available in
1 Panel and 3-Ply Formats*

MODULARITY

Our 4mL and 7mL concentrate lids and lid dielines are also compatible with 15 Dram containers.

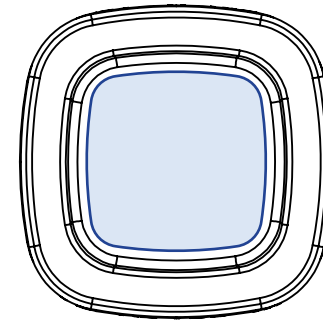

WORKING WITH OUR WRAPAROUND LID LABELS

These labels curve to follow the slight angle of our physical lids.

- This means elements on a single panel might need to be rotated in order to appear straight when printed. Use the gray rotational values at the top of each panel.
- This also means the dimensions in the dieline document reflect the overall height of the label shape, not the height of any single panel.

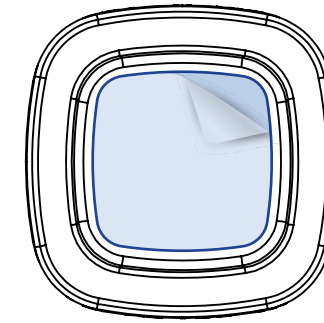

1 PANEL LID LABEL

W 0.9325" x H 0.9325"

3-PLY HINGE LID LABEL

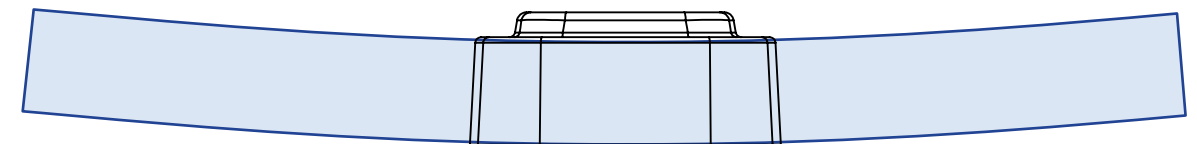

W 0.9325" x H 0.9325" per layer

WRAPAROUND LID LABEL

OVERALL: W 6.056" x H 0.702"

SINGLE PANEL: W 1.4" x H 0.542"

*For more information on designing for our hinge dielines, reach out to the Calyx Team.
